Held Council Chambers 7:30 P.M. November 13 1984

The purpose of this meeting is to discuss with the county the eventual take-over of the water system by the village.

County Commissioner, Darrel Opfer; Ottawa County Sanitary Engineer, Kelly Frey; Poggemeyer Engineering representative, Ray Sangeholtz; Councilmen Norman Klee, Karen Hosley, Gladys Donley, and William Peloquin; Mayor Despones; and citizens Mrs. Despones, Mr. & Mrs. McCaughey, and Les Krumnow, were in attendance.

Several issues were discussed by the group. It was decided that the water towers would be painted in the Spring. After discussion it was proposed that the village take over the system in six months, perhaps earlier. Kelly Frey suggested that it would be beneficial to track down the reason for such a high rate of water loss between here and Oregon.
